

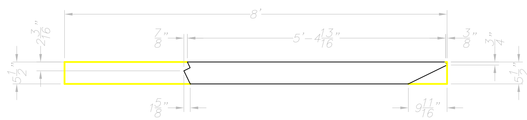
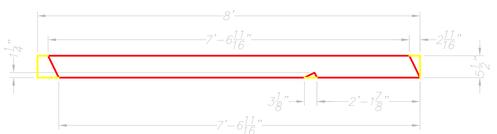
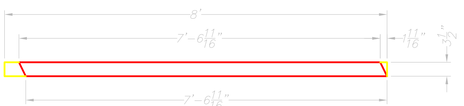
Rafter A



Rafter B



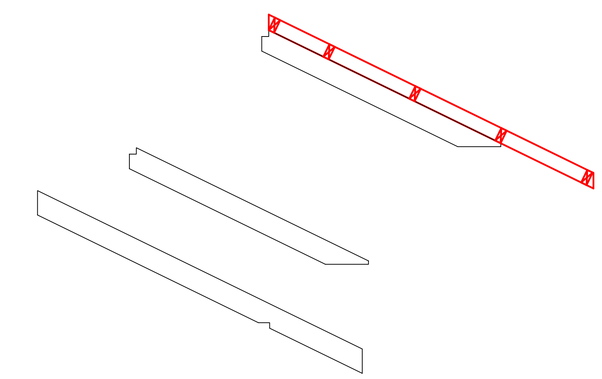
Ladder A

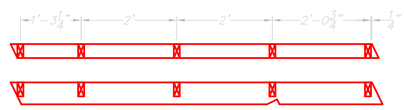


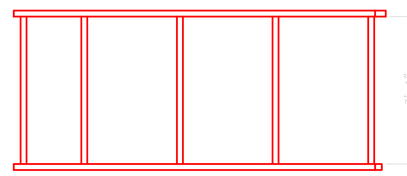
Ladder B

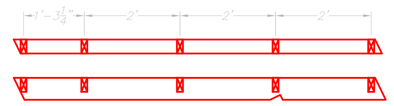
CUTS

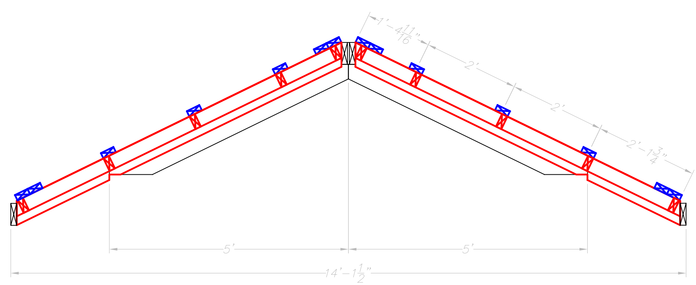
What I've done in the past is plot these out 1:1 on my laser printer then use the print outs to make plywood and strapping templates. I then measure from the end of the board and trace the plywood template. It makes markup for the cuts MUCH faster.

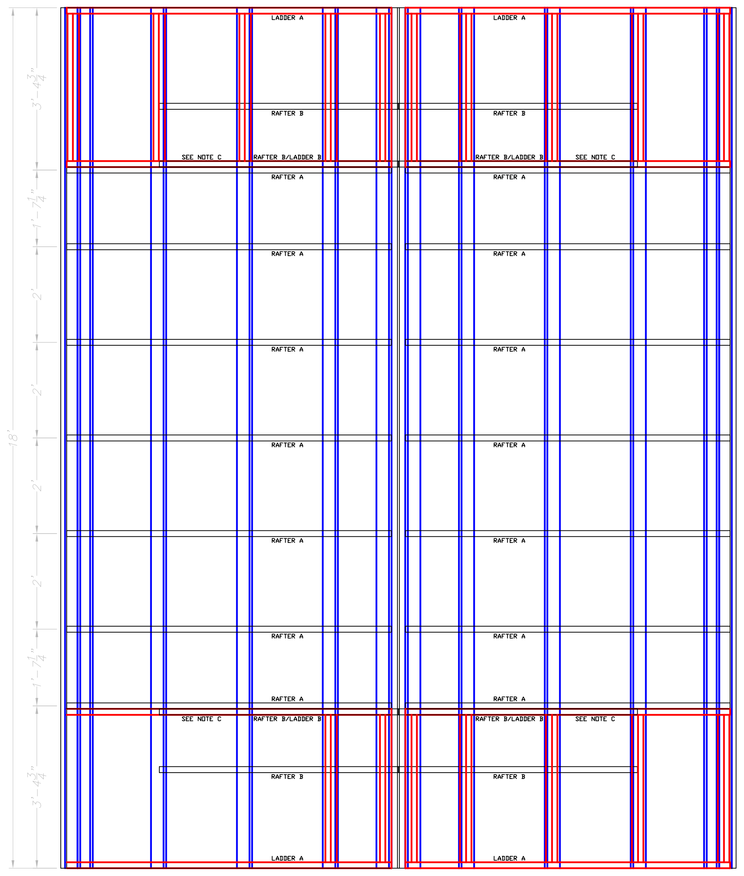












14' x 28' Roof

Rafters
14 - 2x6 x 8' (Rafter A)
8 - 2x6 x 8' (Rafter B)

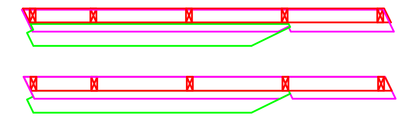
Fascia
5 - 2x6 x 8'

Strapping

32 - 2x4 x 8'

Ladders
10 - 2x4 x 8' (blocks)
4 - 2x4 x 8' (Ladder A)
4 - 2x6 x 8' (Ladder B)

Ridge Beam
2 - 2x6 x 8'
2 - 2x6 x 12'

NOTE C


LADDER B sits on top of **RAFTER B** as shown. **RAFTER B** sits beside and below **RAFTER A** as shown. **RAFTER B** and **LADDER B** are nailed to **RAFTER A**. Misalignment is for clarity only.
